February 13, 2014

Safe Harbor Statement and Non-GAAP Financial Measures

Certain information in this presentation may be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those not based on historical information, but rather relate to our outlook, future operations, strategies, financial results, or other developments. Forward-looking statements speak only as of the date made. We undertake no obligation to update these statements, even if made available on our website or otherwise. These forward-looking statements are subject to numerous assumptions, risks, and uncertainties, many of which are beyond our control. We caution readers that the following factors, in addition to other factors mentioned from time to time, may cause actual results to differ materially from those contemplated by the forward-looking statements: (1) unfavorable economic or business conditions, both domestic and foreign; (2) sustained periods of low interest rates; (3) fluctuation in insurance reserve liabilities and claim payments due to changes in claim incidence, recovery rates, mortality rates, and offsets due to, among other factors, the rate of unemployment and consumer confidence, the emergence of new diseases, epidemics, or pandemics, new trends and developments in medical treatments, the effectiveness of claims management operations, and changes in government programs; (4) legislative, regulatory, or tax changes, both domestic and foreign, including the effect of potential legislation and increased regulation in the current political environment; (5) investment results, including, but not limited to, changes in interest rates, defaults, changes in credit spreads, impairments, and the lack of appropriate investments in the market which can be acquired to match our liabilities; (6) effects of business disruption or economic contraction due to disasters such as terrorist attacks, cyber attacks, other hostilities, or natural catastrophes, including any related impact on the value of our investment portfolio, our disaster recovery systems, cyber or other information security systems, and business continuity planning; (7) ineffectiveness of our derivatives hedging programs due to changes in the economic environment, counterparty risk, ratings downgrades, capital market volatility, changes in interest rates, and/or regulation; (8) increased competition from other insurers and financial services companies due to industry consolidation or other factors; (9) changes in our financial strength and credit ratings; (10) damage to our reputation due to, among other factors, regulatory investigations, legal proceedings, external events, and/or inadequate or failed internal controls and procedures; (11) actual experience that deviates from our assumptions used in pricing, underwriting, and reserving; (12) actual persistency and/or sales growth that is higher or lower than projected; (13) changes in demand for our products due to, among other factors, changes in societal attitudes, the rate of unemployment, consumer confidence, and/or legislative and regulatory changes, including healthcare reform; (14) effectiveness of our risk management program; (15) the level and results of litigation; (16) changes in accounting standards, practices, or policies; (17) fluctuation in foreign currency exchange rates; (18) ability to generate sufficient internal liquidity and/or obtain external financing; (19) availability of reinsurance in the market and the ability of our reinsurers to meet their obligations to us; and (20) recoverability and/or realization of the carrying value of our intangible assets, long-lived assets, and deferred tax assets. For further discussion of risks and uncertainties which could cause actual results to differ from those contained in the forward-looking statements, see Part I, Item 1A of our annual report on Form 10-K for the year ended December 31, 2012. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by these cautionary statements.

In analyzing performance, Unum sometimes uses non-GAAP financial measures that differ from what is reported under GAAP. This presentation contains non-GAAP financial measures, including operating earnings per share, operating return on equity, book value per share (excluding accumulated other comprehensive income, or AOCI), and before tax operating earnings (BTOE). Please refer to the Appendix for a reconciliation of the non-GAAP financial measures used in this presentation to the most directly comparable GAAP measures.

- Fortune 250 Company
- Leading market positions in US and UK
- Over 25 million individual customers
- Market value of approximately \$8 billion
