**Unum Group Reports Second Quarter 2019 Results**

**CHATTANOOGA, Tenn. (July 30, 2019)** - Unum Group (NYSE: UNM) today reported net income of \$281.2 million (\$1.33 per diluted common share) for the second quarter of 2019, compared to net income of \$285.5 million (\$1.29 per diluted common share) for the second quarter of 2018.

Included in net income are net after-tax realized investment gains and losses on the Company's investment portfolio. Excluding net after-tax realized investment gains and losses, after-tax adjusted operating income was \$286.9 million (\$1.36 per diluted common share) in the second quarter of 2019, compared to \$287.6 million (\$1.30 per diluted common share) in the second quarter of 2018.

"We are very pleased with our financial results for the second quarter and the strong premium growth we are generating in our core business segments," said Richard P. McKenney, president and chief executive officer. "We are continuing to make strong progress as we execute on our strategic priorities and deliver on our purpose to provide essential financial protection to millions of workers and families."

UNUM IS A REGISTERED TRADEMARK AND MARKETING BRAND OF UNUM GROUP AND ITS INSURING SUBSIDIARIES.

## **RESULTS BY SEGMENT**

We measure and analyze our segment performance on the basis of "adjusted operating income" or "adjusted operating loss", which differ from income before income tax as presented in our consolidated statements of income due to the exclusion of net realized investment gains and losses. These performance measures are in accordance with GAAP guidance for segment reporting, but they should not be viewed as a substitute for income before income tax or net income.

### **Unum US Segment**

Unum US reported adjusted operating income of \$254.3 million in the second quarter of 2019, an increase of 1.3 percent from \$251.1 million in the second quarter of 2018. Premium income for the segment increased 6.2 percent to \$1,504.5 million in the second quarter of 2019, compared to premium income of \$1,416.3 million in the second quarter of 2018. Net investment income for the segment declined 6.3 percent to \$184.1 million in the second quarter of 2019, compared to \$196.5 million in the second quarter of 2018.

Within the Unum US operating segment, the group disability line of business reported a 2.5 percent increase in adjusted operating income to \$83.6 million in the second quarter of 2019, compared to \$81.6 million in the second quarter of 2018. Premium income in group disability increased 6.0 percent to \$644.8 million in the second quarter of 2019, compared to \$608.4 million in the second quarter of 2018, with prior period sales growth in both product lines and improved persistency in the group short-term disability product line. Net investment income declined by 9.2 percent to \$98.9 million in the second quarter of 2019, compared to \$108.9 million in the second quarter of 2018, due to a decline in yield on invested assets, lower miscellaneous investment income, and a decrease in the level of invested assets. The benefit ratio for the second quarter of 2019 was 74.7 percent, compared to 76.2 percent in the second quarter of 2018, due primarily to favorable claim recovery experience in the group long-term disability product line, partially offset by higher paid claim volumes in the group short-term disability product line. Group long-term disability sales were \$48.7 million in the second quarter of 2019, an increase of 18.8 percent from \$41.0 million in the second quarter of 2018. Group short-term disability sales were \$36.6 million in the second quarter of 2019, an increase of 55.1 percent from \$23.6 million in the second quarter of 2018. Persistency in the group long-term disability line of business was 90.5 percent for the first half of 2019, compared to 90.6 percent for the first half of 2018. Persistency in the group short-term disability line of business was 90.3 percent for the first half of 2019, compared to 87.7 percent for the first half of 2018.

The group life and accidental death and dismemberment line of business reported adjusted operating income of \$62.7 million in the second quarter of 2019, a decrease of 6.7 percent from \$67.2 million in the second quarter of 2018. Premium income for this line of business increased 7.4 percent to \$461.7 million in the second quarter of 2019, compared to \$429.7 million in the second quarter of 2018, primarily due to prior period sales growth and favorable persistency. Net investment income declined 0.7 percent to \$27.0 million in the second quarter of 2019, compared to \$27.2 million in the second quarter of 2018, primarily due to a decline in yield on invested assets and lower miscellaneous investment income, partially offset by an increase in the level

of invested assets. The benefit ratio in the second quarter of 2019 was 72.9 percent, compared to 70.3 percent in the second quarter of 2018, driven primarily by a higher average claim size. Sales of group life and accidental death and dismemberment products declined 1.3 percent in the second quarter of 2019 to \$53.8 million, compared to \$54.5 million in the second quarter of 2018. Persistency in the group life line of business was 91.2 percent for the first half of 2019, compared to 90.9 percent for the first half of 2018. Persistency in the accidental death and dismemberment line of business was 90.1 percent for the first half of 2019, compared to 89.2 percent for the first half of 2018.

The supplemental and voluntary line of business reported an increase of 5.6 percent in adjusted operating income to \$108.0 million in the second quarter of 2019, compared to \$102.3 million in the second quarter of 2018. Premium income for supplemental and voluntary increased 5.2 percent to \$398.0 million in the second quarter of 2019, compared to \$378.2 million in the second quarter of 2018. This increase was primarily driven by higher sales in the voluntary benefits and dental and vision product lines. Net investment income decreased 3.6 percent to \$58.2 million in the second quarter of 2019, compared to \$60.4 million in the second quarter of 2018, due to a decline in yield on invested assets and lower miscellaneous investment income, partially offset by growth in the level of invested assets. The benefit ratio for the individual disability product line was 53.5 percent for the second quarter of 2019, compared to 50.0 percent for the second quarter of 2018, due primarily to unfavorable claims activity and less favorable mortality experience. The benefit ratio for voluntary benefits was 42.5 percent in the second quarter of 2019, compared to 43.3 percent for the second quarter of 2018, with favorable claims experience in our disability and hospital indemnity products. The benefit ratio for dental and vision was 71.6 percent for the second quarter of 2019, compared to 69.4 percent for the second quarter of 2018, due to a higher average claims size. Relative to the second quarter of 2018, sales in the individual disability line of business declined 23.8 percent in the second quarter of 2019 to \$14.4 million. Sales in the voluntary benefits line of business increased 12.7 percent in the second quarter of 2019 to \$54.0 million. Sales in the dental and vision product line totaled \$14.2 million for the second quarter of 2019, an increase of 20.3 percent compared to the second quarter of 2018. Persistency in the individual disability product line was 90.3 percent for the first half of 2019, compared to 90.5 percent for the first half of 2018. Persistency in the voluntary benefits product line was 72.7 percent for the first half of 2019, compared to 76.4 percent for the first half of 2018. Persistency in the dental and vision product line was 84.7 percent for the first half of 2019, compared to 85.2 percent for the first half of 2018.

#### **Unum International**

The Unum International segment reported adjusted operating income of \$30.7 million in the second quarter of 2019, an increase of 11.2 percent from \$27.6 million in the second quarter of 2018.

Premium income increased 14.2 percent to 158.6 million in the second quarter of 2019, compared to \$138.9 million in the second quarter of 2018. Net investment income was \$44.8 million in the second quarter of 2019, compared to \$32.1 million in the second quarter of 2018.

Sales increased by 4.9 percent to \$29.7 million in the second quarter of 2019, compared to \$28.3 million in the second quarter of 2018.

The Unum UK line of business reported adjusted operating income, in local currency, of £22.7 million in the second quarter of 2019, an increase of 11.3 percent from £20.4 million in the second quarter of 2018. Premium income was £109.6 million in the second quarter of 2019, an increase of 7.3 percent from £102.1 million in the second quarter of 2018, driven by higher overall persistency, sales growth, and the impact of premium rate increases in the group long-term disability product line. Net investment income was £33.5 million in the second quarter of 2019, an increase of 42.6 percent from £23.5 million in the second quarter of 2018, due to higher miscellaneous investment income, resulting from a higher than normal level of bond calls, and a higher level of invested assets, partially offset by a lower yield on fixed-rate bonds. Investment income also increased from inflation index-linked bonds, which we invest in to support the claim reserves associated with certain of our group policies that provide for inflation-linked increases in benefits. The benefit ratio in the second quarter of 2019 was 85.6 percent, compared to 76.7 percent in the second quarter of 2018, due to unfavorable mortality experience and a reduction in the claim reserve discount rate to recognize the impact on future portfolio yields from the higher than normal level of bond calls. Sales increased by 0.5 percent to £20.7 million in the second quarter of 2019 compared to £20.6 million in the second quarter of 2018. Persistency in the group long-term disability line of business was 89.5 percent in the first half of 2019, compared to 86.9 percent in the first half of 2018. Persistency in the group life line of business was 88.4 percent in the first half of 2019, compared to 84.1 percent in the first half of 2018. Persistency in the supplemental line of business was 92.2 percent in the first half of 2019, compared to 92.3 percent in the first half of 2018.

### **Colonial Life Segment**

Colonial Life reported a 0.2 percent decrease in adjusted operating income to \$84.4 million in the second quarter of 2019, compared to \$84.6 million in the second quarter of 2018. Premium income for the second quarter of 2019 increased 6.4 percent to \$420.9 million, compared to \$395.4 million in the second quarter of 2018, primarily driven by growth in the in-force block resulting from prior period sales growth, which includes the expansion of our dental and vision products, partially offset by a lower level of persistency. Net investment income totaled \$37.2 million the second quarter of 2019, compared to \$40.2 million in the second quarter of 2018, primarily driven by lower miscellaneous investment income and a lower yield on invested assets, partially offset by an increase in the level of invested assets. The benefit ratio in the second quarter of 2019 was 51.4 percent, compared to 51.0 percent in the second quarter of 2018, due primarily to higher claims incidence in our cancer and critical illness line of business, partially offset by lower claims incidence in our life line of business.

Sales decreased 4.2 percent to \$126.9 million in the second quarter of 2019 from \$132.4 million in the second quarter of 2018. Persistency in Colonial Life was 77.1 percent for the first half of 2019, compared to 78.1 percent for the first half of 2018.

### **Closed Block Segment**

The Closed Block segment reported adjusted operating income of \$33.7 million in the second quarter of 2019, compared to \$29.6 million in the second quarter of 2018.

Premium income for this segment declined 4.2 percent in the second quarter of 2019 compared to the second quarter of 2018, primarily due to policy terminations and maturities, partially offset by premium rate increases on certain in-force business in our long-term care line of business. Net investment income increased 2.6 percent to \$354.5 million in the second quarter of 2019, compared to \$345.6 million in the second quarter of 2018, primarily driven by an increase in the level of invested assets, partially offset by lower miscellaneous investment income. The interest adjusted loss ratio for the individual disability line of business was 81.3 percent in the second quarter of 2019, compared to 82.9 percent in the second quarter of 2018, due to a reduction in the claim reserve discount rate to recognize the impact on future portfolio yields resulting from an increased level of miscellaneous investment income in the second quarter of 2018, partially offset by higher claims incidence in the second quarter of 2019. The interest adjusted loss ratio for the long-term care line of business was 87.4 percent in the second quarter of 2019 and was not comparable to the interest adjusted loss ratio of 96.9 percent in the second quarter of 2018 due to the update in our assumptions during the third quarter of 2018, but was consistent with our expectations. The interest adjusted loss ratio for the period subsequent to the update in our assumptions was 86.7 percent.

### **Corporate Segment**

The Corporate segment reported an adjusted operating loss of \$43.8 million for the second quarter of 2019, compared to an adjusted operating loss of \$35.5 million for the second quarter of 2018.

## **OTHER INFORMATION**

### **Shares Outstanding**

The Company's weighted average number of shares outstanding, assuming dilution, was 211.1 million for the second quarter of 2019, compared to 221.1 million for the second quarter of 2018. Shares outstanding totaled 209.6 million at June 30, 2019. During the second quarter of 2019, the Company repurchased approximately 2.9 million shares at a cost of approximately \$100 million.

### **Capital Management**

At June 30, 2019, the weighted average risk-based capital ratio for the Company's traditional U.S. insurance companies was approximately 365 percent, and cash and marketable securities in the holding companies equaled \$977 million.

### **Book Value**

Book value per common share as of June 30, 2019 was \$45.11, compared to \$43.20 at June 30, 2018.

### Outlook

The Company continues to expect after-tax adjusted operating income growth per share for full-year 2019 to be within the range of 4 percent to 7 percent.

### NON-GAAP FINANCIAL MEASURES

We analyze our performance using non-GAAP financial measures. A non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. The non-GAAP financial measure of "after-tax adjusted operating income" differs from net income as presented in our consolidated operating results and income statements prepared in accordance with GAAP due to the exclusion of net realized investment gains and losses as specified in the reconciliations in the Financial Highlights section below. We believe after-tax adjusted operating income is a better performance measure and better indicator of the profitability and underlying trends in our business.

Realized investment gains or losses depend on market conditions and do not necessarily relate to decisions regarding the underlying business of our segments. Our investment focus is on investment income to support our insurance liabilities as opposed to the generation of realized investment gains or losses. Although we may experience realized investment gains or losses which will affect future earnings levels, a long-term focus is necessary to maintain profitability over the life of the business since our underlying business is long-term in nature, and we need to earn the interest rates assumed in calculating our liabilities.

We may at other times exclude certain other items from our discussion of financial ratios and metrics in order to enhance the understanding and comparability of our operational performance and the underlying fundamentals. We exclude these items as we believe them to be infrequent or unusual in nature, but this exclusion is not an indication that similar items may not recur and does not replace net income or net loss as a measure of our overall profitability.

Information reconciling the Company's outlook on after-tax adjusted operating income growth per share to the comparable GAAP financial measure is not provided. The only amounts excluded from after-tax adjusted operating income are those described in the preceding paragraphs. The Company is unable to predict with reasonable certainty realized investment gains and losses, which are affected by overall market conditions and also by factors such as an economic or political change in the country of the issuer, a regulatory change pertaining to the issuer's industry, a significant improvement or deterioration in the cash flows of the issuer, unforeseen accounting irregularities or fraud committed by an issuer, movement in credit spreads, ratings upgrades or downgrades, a change in the issuer's marketplace or business prospects, or any other event that significantly affects the issuers of the fixed maturity securities which the Company holds in its investment portfolio.

## **SAFE HARBOR STATEMENT**

Certain information in this news release constitutes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those not based on historical information, but rather relate to our outlook, future operations, strategies, financial results, or other developments and speak only as of the date made. These forward-looking statements, including statements about anticipated growth in after-tax adjusted operating income per share, are subject to numerous assumptions, risks, and uncertainties, many of which are beyond our control. The following factors, in addition to other factors mentioned from time to time, may cause actual results to differ materially from those contemplated by the forward-looking statements: (1) sustained periods of low interest rates; (2) fluctuation in insurance reserve liabilities and claim payments due to changes in claim incidence, recovery rates, mortality and morbidity rates, and policy benefit offsets due to, among other factors, the rate of unemployment and consumer confidence, the emergence of new diseases, epidemics, or pandemics, new trends and developments in medical treatments, the effectiveness of our claims operational processes, and changes in governmental programs; (3) unfavorable economic or business conditions, both domestic and foreign, that may result in decreases in sales, premiums, or persistency, as well as unfavorable claims activity; (4) changes in or interpretations of laws and regulations, including tax laws and regulations; (5) a cyber attack or other security breach could result in the unauthorized acquisition of confidential data; (6) the failure of our business recovery and incident management processes to resume our business operations in the event of a natural catastrophe, cyber attack, or other event; (7) investment results, including, but not limited to, changes in interest rates, defaults, changes in credit spreads, impairments, and the

lack of appropriate investments in the market which can be acquired to match our liabilities; (8) increased competition from other insurers and financial services companies due to industry consolidation, new entrants to our markets, or other factors; (9) changes in our financial strength and credit ratings; (10) our ability to execute on our technology systems upgrades or replacements; (11) damage to our reputation due to, among other factors, regulatory investigations, legal proceedings, external events, and/or inadequate or failed internal controls and procedures; (12) actual experience in the broad array of our products that deviates from our assumptions used in pricing, underwriting, and reserving; (13) changes in accounting standards, practices, or policies; (14) effectiveness of our risk management program; (15) contingencies and the level and results of litigation; (16) availability of reinsurance in the market and the ability of our reinsurers to meet their obligations to us; (17) ineffectiveness of our derivatives hedging programs due to changes in the economic environment, counterparty risk, ratings downgrades, capital market volatility, changes in interest rates, and/or regulation; (18) fluctuation in foreign currency exchange rates; (19) ability to generate sufficient internal liquidity and/or obtain external financing; (20) recoverability and/or realization of the carrying value of our intangible assets, long-lived assets, and deferred tax assets; and (21) terrorism, both within the U.S. and abroad, ongoing military actions, and heightened security measures in response to these types of threats.

For further discussion of risks and uncertainties which could cause actual results to differ from those contained in the forward-looking statements, see Part 1, Item 1A "Risk Factors" of our annual report on Form 10-K for the year ended December 31, 2018 and our subsequently filed quarterly reports on Form 10-Q. The forward-looking statements in this news release are being made as of the date of this news release, and we expressly disclaim any obligation to update or revise any forward-looking statement contained herein, even if made available on our website or otherwise.

Allocated stockholders' equity is determined on the basis of an internal allocation formula that reflects the volume and risk components of the business and aligns with our target capital levels for regulatory and rating agency purposes. We modify this formula periodically to recognize changes in the views of capital requirements.

## Unum Group Financial Results by Segment

We measure and analyze our segment performance on the basis of "adjusted operating revenue" and "adjusted operating income" or "adjusted operating loss", which differ from total revenue and income (loss) before income tax as presented in our consolidated statements of income due to the exclusion of net realized investment gains and losses and certain other items as specified in the following pages. These performance measures are in accordance with GAAP guidance for segment reporting, but they should not be viewed as a substitute for total revenue, income (loss) before income tax, or net income (loss).

The adjustment related to unrealized investment gains and losses reflects the changes that would be necessary to policyholder liabilities if the unrealized investment gains and losses related to the corresponding available-for-sale securities had been realized. Changes in this adjustment are primarily due to movements in the U.S. Treasury rates and credit spreads.

## Appendix to Statistical Supplement

### 2019 Significant Item

- In February 2016, the Financial Accounting Standards Board (FASB) issued an update that changed the accounting and disclosure requirements for leases. These changes include the requirement for lessees to report most leases on their balance sheets, regardless of whether the lease is classified as a finance lease or an operating lease. For lessees, the initial lease liability is equal to the present value of lease payments and a corresponding asset, adjusted for certain items, is also recorded. The expense recognition for lessees remained similar to previous accounting requirements for capital and operating leases. We adopted this update effective January 1, 2019 using a modified retrospective approach through a cumulative-effect adjustment as of January 1, 2019 which resulted in a decrease to retained earnings of \$3.4 million, an increase to other assets of \$117.7 million, a decrease in deferred income tax of \$0.4 million, an increase to other liabilities of \$122.0 million, and a decrease to income tax payable of \$1.3 million.

### 2018 Significant Items

- In October 2018, we acquired 100 percent of the shares and voting interests in Unum Poland, a financial protection benefits provider in Poland. This acquisition will expand our European presence, which we believe to be an attractive market for financial protection benefits. This acquisition, the results of which are included in our consolidated financial statements for the period subsequent to the date of acquisition, did not have a material impact on revenue, operating results, or sales during 2018.
- Third quarter of 2018 reserve increase of \$750.8 million before tax and \$593.1 million after tax related to long-term care.
- In January 2016, the FASB issued an update that changed the accounting and disclosure requirements for certain financial instruments. These changes include a requirement to measure equity investments, other than those that result in consolidation or are accounted for under the equity method, at fair value through net income unless the investment qualifies for certain practicability exceptions. In addition, the update clarified guidance related to the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale fixed maturity securities. We adopted this update effective January 1, 2018 using a modified retrospective approach through a cumulative-effect adjustment as of January 1, 2018 which resulted in a decrease to accumulated other comprehensive income (AOCI) of \$17.5 million, an increase to retained earnings of \$14.5 million, a decrease to other long-term investments of \$3.8 million, and a decrease to deferred income tax liability of \$0.8 million.

### 2017 Significant Items

- Fourth quarter of 2017 unclaimed death benefit reserve increase of \$18.5 million for Unum US group life, \$8.1 million for Unum US voluntary life and \$12.4 million for Colonial Life voluntary life, for a total reserve increase of \$39.0 million before tax and \$25.4 million after tax.
- Fourth quarter of 2017 net tax benefit of \$31.5 million resulting from H.R. 1, An Act to Provide Reconciliation Pursuant to Titles II and V of the Concurrent Resolution on the Budget for Fiscal Year 2018, more commonly known as the Tax Cuts and Jobs Act (TCJA) enacted on December 22, 2017. This is comprised of a tax benefit of \$97.9 million related to the revaluation of our net deferred tax liabilities associated with our U.S. operations to the newly enacted U.S. corporate tax rate and a tax expense of \$66.4 million resulting from the tax on undistributed and previously untaxed foreign earnings and profits.
- Fourth quarter of 2017 results for the Unum US individual disability product line reflects a reserve release of \$19.5 million before tax and \$12.7 million after tax, resulting from our annual review of reserve adequacy which reflects the recognition of updated morbidity assumptions in our disabled life reserves.
- First quarter of 2017 loss from a guaranty fund assessment of \$20.6 million before tax and \$13.4 million after tax.

### Non-GAAP Financial Measures

We analyze our performance using non-GAAP financial measures which exclude or include amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. We believe the following non-GAAP financial measures are better performance measures and better indicators of the revenue and profitability and underlying trends in our business:

- Consolidated adjusted operating revenue, which excludes realized investment gains or losses;
- After-tax adjusted operating income or loss, which excludes realized investment gains or losses and certain other items, as applicable;
- Adjusted operating return on equity, which is calculated using after-tax adjusted operating income or loss and excludes from equity the unrealized gain or loss on securities and net gain on hedges;
- Leverage ratio, which excludes the unrealized gain or loss on securities and net gain on hedges, and the non-recourse debt and associated capital of Northwind Holdings, LLC; and
- Book value per common share, which is calculated excluding AOCI.

Realized investment gains or losses and unrealized gains or losses on securities and net gains on hedges depend on market conditions and do not necessarily relate to decisions regarding the underlying business of our Company. Leverage ratio and book value per common share excluding certain components of AOCI, certain of which tend to fluctuate depending on market conditions and general economic trends, are important measures. We also exclude certain other items from our discussion of financial ratios and metrics in order to enhance the understanding and comparability of our operational performance and the underlying fundamentals. We exclude these items as we believe them to be infrequent or unusual in nature, but this exclusion is not an indication that similar items may not recur and does not replace the comparable GAAP measures in the determination of overall profitability.

Information reconciling the Company's outlook on after-tax adjusted operating income growth per share to the comparable GAAP financial measure is not provided. The only amounts excluded from after-tax adjusted operating income are those described in this Appendix to Statistical Supplement. The Company is unable to predict with reasonable certainty realized investment gains and losses, which are affected by overall market conditions and also by factors such as an economic or political change in the country of the issuer, a regulatory change pertaining to the issuer's industry, a significant improvement or deterioration in the cash flows of the issuer, unforeseen accounting irregularities or fraud committed by an issuer, movement in credit spreads, ratings upgrades or downgrades, a change in the issuer's marketplace or business prospects, or any other event that significantly affects the issuers of the fixed maturity securities which the Company holds in its investment portfolio. For a reconciliation of the most directly comparable GAAP measures to these non-GAAP financial measures, refer to the "Reconciliation of Non-GAAP Financial Measures" beginning on page 16.2, other than book value per common share, which is presented on page 2.
